Ranking Summary

#	Candidate	Skills (30%)	Exp (25%)	Edu (15%)	Projects (20%)	Comm (10%)	Total	Decision
1	Rahul Sharma	3.0	0.0	5.0	0.0	10.0	2.65	NO_HIRE

Detailed Candidate Reports

#1 Rahul Sharma

NO_HIRE

The candidate is significantly underqualified for this Senior Backend Engineer role, primarily due to a complete lack of relevant experience (0 years vs. 4 years minimum) and a substantial mismatch in domain-specific skills and project experience (FinTech/Payments, high-throughput systems). While their educational background is appropriate and their resume is well-written, the core technical and experiential requirements for a senior position in a critical payments platform are not met.

Dimension (Weight)	Score	Justification	Evidence
Skills Match 30%	3.0	The candidate possesses some core required skills like Python, FastAPI (preferred), REST APIs, and Docker. However, there are significant gaps in critical required skills such as PostgreSQL, Redis, Kubernetes, specific AWS services (EC2, RDS, SQS, Lambda), Microservices architecture at a senior level, Git, and CI/CD pipelines. Most preferred skills are also missing.	Skills: Python, FastAPI, Docker, REST APIs; Required Skills: PostgreSQL, Redis, Kubernetes, AWS (EC2, RDS, SQS, Lambda), Microservices architecture, Git, CI/CD pipelines (GitHub Actions / Jenkins)
Experience Relevance 25%	0.0	The candidate explicitly states 0 years of experience, which is a direct mismatch with the minimum requirement of 4.0 years for a senior role. Their single work history entry is an 'AI Backend Intern' role, which does not demonstrate experience in FinTech/Payments, high-throughput systems (10M+ transactions/day), database optimization, or leading engineering best practices as required for a senior position.	Experience: 0 years; Minimum Experience: 4.0
Education & Certs 15%	5.0	The candidate meets the required education with a B.Tech in Computer Science. They have an AWS certification (Cloud Practitioner), but it is foundational and does not meet the preferred level of 'AWS Certified Developer – Associate or above' or 'AWS Certified Solutions Architect'.	Education: B.Tech in Computer Science from XYZ Institute of Technology; Required Education: B.Tech / B.E. in Computer Science, Information Technology, or equivalent
Project / Portfolio 20%	0.0	None of the candidate's listed projects ('AI Resume Screening System', 'YouTube Transcript Chatbot', 'Placement Portal using MERN Stack') are related to FinTech, payments, high-throughput transaction processing, or scalable distributed financial systems, which are central to the job description.	Projects: AI Resume Screening System, YouTube Transcript Chatbot, Placement Portal using MERN Stack; Domain: FinTech / Payments Backend Engineering
Communication Quality 10%	10.0	Based on the 'Resume Writing Notes', the resume is well-structured, concise, and clearly highlights relevant skills and experience with good use of action verbs, indicating exceptional communication quality.	Resume Writing Notes: The resume is well-structured, concise, and clearly highlights relevant skills and experience with good use of action verbs.

■ **Matches:** Python, FastAPI, REST APIs, Docker, AWS Cloud Practitioner (basic AWS knowledge)

■ **Gaps:** PostgreSQL, Redis, Kubernetes, AWS (EC2, RDS, SQS, Lambda) at a senior level, Microservices architecture (at scale/resilience), Git, CI/CD pipelines (GitHub Actions / Jenkins), Apache Kafka
